

Provided through the gracious contribution of Dr. Dakai Zhu

FACILITIES, EQUIPMENT & OTHER RESOURCES

FACILITIES: Identify the facilities to be used at each performance site listed and, as appropriate, indicate their capacities, pertinent capabilities, relative proximity, and extent of availability to the project. Use "Other" to describe the facilities at any other performance sites listed and at sites for field studies. USE additional pages as necessary.

Laboratory:

Clinical:

Animal:

Computer:

Office: The PI has one research office that is available for Ph.D students.

Other:

MAJOR EQUIPMENT: List the most important items available for this project and, as appropriate identifying the location and pertinent capabilities of each.

One ThinkStation Tower D10 with two (2) Intel Xeon Quad-Core processors (E5405: 2.00GHz 1333MHz 12MBL2) and 16GB memory is available for the initial study of the program behaviours in multicore based systems. It can also be used for development and testing of the new scheduling algorithms. This machine belongs to the PI and is readily accessible to the students working on this project.

OTHER RESOURCES: Provide any information describing the other resources available for the project. Identify support services such as consultant, secretarial, machine shop, and electronics shop, and the extent to which they will be available for the project. Include an explanation of any consortium/contractual arrangements with other organizations.
