

Office of the Vice President for Research

January 22, 2016

To: Dr. Bernard Arulanadam
Assistant Vice President for Research Support
Professor of Biology

For: Letter of Commitment from internal Program Advisory Board members

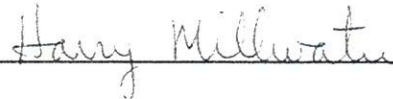

This letter describes the individual commitment that each internal Program Advisory Board (PAB) member will provide under the “**UTSA Nuclear Research Faculty Fellows Program**” for a period of three years. If awarded the U.S. Nuclear Regulatory Commission Faculty Development Grant, PAB members agree to:

1. Serve as the scholarly review committee for applicants to ensure that the best qualified early career faculty candidates are accepted based on their education, teaching and research experience, publication history and proposed contribution to the needs of the nuclear community.
2. Participate on a committee of UTSA leadership and external representation to provide guidance and oversight throughout the duration of the grant, to ensure that all program deliverables are met within the established timelines.
3. Attend quarterly PAB meetings.
4. When issues are identified within the program, the PAB will assist in the leading the program to quick and sustained solutions.
5. Facilitate college level participation in the *UTSA Nuclear Research Seminar Series* and capstone *UTSA Nuclear Research Symposium*.
6. Facilitate partnerships with external organizations as needed.

Bernard Arulanadam, Ph.D., M.B.A.
Jane and Roland Blumberg Professor of Biology
