

Announcement: 2018 SALS I Pilot Awards for Opioid Epidemic Research

The goal of the new pilot funding program under the auspices of the San Antonio Life Sciences Institute (SALS I) is to promote interdisciplinary research focused on strategies addressing the broad themes described in the Helping to End Addiction Long-term (HEAL) Initiative, a [report](#) released April 4, 2018 by the National Institutes of Health.

The SALS I leadership identifies topic categories for intramural funding that will leverage study results into an external application in areas the biomedical research community* is investing heavily in response to national public health priorities.

**Applicants seeking funding are not limited to topics under the HEAL Initiative, but to be competitive, are encouraged to reference the particular agency(ies) where additional grant support could be obtained i.e. Substance Abuse and Mental Health Services Administration, Centers for Disease Control and Prevention, and the Department of Defense.*

Targeted Priority Topics within the HEAL Initiative:

Understanding the origins of chronic pain:

- a. Identify biomarkers that can predict transition from acute to chronic pain
- b. Genetic and social factors that put patients at risk for opioid misuse and addiction

New treatments for pain:

- a. Build a clinical trial network for pain treatment
- b. Facilitate the development of non-pharmacological approaches to treat pain (devices, magnetic stimulation, etc.)

Precision Medicine/Prevention:

- a. Understanding vulnerability to addiction
- b. Comprehensive study of genomic variations that predispose to addiction/pain

New treatment for drug addiction:

- a. Develop novel immunotherapies (vaccines and/or monoclonal antibodies) to neutralize opioids and prevent relapse
- b. Develop additional endpoints for studies on the treatment of opioid addiction, taking into account patient experience and needs for long-term recovery.

Overdose Prevention and reversal:

- a. Overdose reversal agents
- b. Develop devices to monitor high-risk patients
- c. Launch major demonstration projects in communities highly affected by the opioid crisis.

Optimize Effective Treatment:

- a. Develop options for treatment of addiction
- b. Test the implementation of strategies to treat

ELIGIBILITY

The PI(s) from The University of Texas at San Antonio (UTSA) must be a tenured or tenure-track faculty member and the PI(s) from UT Health San Antonio (UT Health SA) must be a tenured, tenure-track, or non-tenured research track faculty member. The collaborative research project must include at least one principal investigator from each institution. Projects may also include scientific/educational/industry partners from the south Texas region; however, only UTSA and UT Health SA activities will be funded through this program.

FUNDING LIMITS

The total maximum amount to be requested is \$50,000 per award (\$25,000 per institution). It is anticipated that two projects will be funded.

GRANT PERIOD: August 1, 2018 to July 31, 2019

PROPOSAL SUBMISSION

Email address for Full Proposal submission: ana.laredo@utsa.edu

Full Proposal deadline: **July 6, 2018**. The PI's will submit one combined proposal. UTSA proposals do not require Research Service Center review until an award is made. UT Health SA proposals do not require Office of Sponsored Programs review or a Certificate of Proposal (COP) until an award is made.

All required proposal elements shall be submitted in a single, text-searchable Adobe Acrobat pdf file. The proposal must include the following, in the order shown below:

1. Proposal Cover Page (Attachment A)
2. Project Description: 3 page maximum; 12 point, Times New Roman font, one-inch margin
3. Joint Execution Plan: 2 page maximum
4. UTSA Awardee Requirements (UTSA PI Must Sign Attachment B)
5. UT Health SA Awardee Requirements (UT Health SA PI Must Sign Attachment C)
6. Budget Summary (Attachment D)
7. Budget Justification: 1 page maximum per PI
8. Biographical Sketch (NIH or NSF Format): 2 page maximum for each PI/co-investigator
9. Reference Page: 2 page maximum

If any information items requested above are not included at the time of submission, the proposal will not be reviewed.

1. PROPOSAL COVER PAGE- (USE ATTACHMENT A)

The Proposal Cover Page must include a clear, well-written executive summary that summarizes the essential content of the proposal – including the targeted priority topic, and potential significance of the proposed research effort.

2. PROJECT DESCRIPTION- (3 PAGE MAXIMUM)

The project description must include, in this order:

- A. General background on the targeted priority topic
- B. Description of an unconventional, ground-breaking approach to the problem outlined in the topic and how the proposed research is of high risk - high reward;
- C. Description of how the research has the potential for major societal impact;
- D. Specific goals, objectives and anticipated results; and a description of methods including anticipated barriers or technical difficulties, and
- E. Specify the resources needed for this project (equipment, materials, etc.) and indicate their availability.
- F. Indicate from which extramural funding program(s) you will be seeking support. List specific program(s). Which grant submission deadline will be targeted?

If you feel additional information is important to submit, an appendix may be included, but there is no obligation for reviewers to read it. A violation of this format will result in your proposal not being reviewed.

3. JOINT EXECUTION PLAN- (2 PAGE MAXIMUM)

Summarize the task-level activities to be performed by UTSA and UT Health SA as they relate to the overall project's objectives. Describe areas of interdependence, the coordination and handoff of interim project materials and data, and the timeline of each organization's participation in the overall project effort. While no specific graphical format or presentation is required, this section is expected to contain a mixture of narrative and graphical information to aid the evaluators' assessment of the proposed scope, roles and responsibilities within the team, and collaboration environment.

4. UTSA PI(s) RESPONSIBILITIES- (SIGN ATTACHMENT B)

Each PI must have this document signed by their Department Chair, indicating that they have also read all responsibilities and obligations of the PI, their Department and the respective institution.

5. UT Health SA PI(s) RESPONSIBILITIES- (SIGN ATTACHMENT C)

Each PI must have this document signed by their Department Chair, indicating that they have also read all responsibilities and obligations of the PI, their Department and the respective institution.

6. BUDGET SUMMARY - (USE ATTACHMENT D)

Awards will be up to \$50,000 for a grant performance period of August 1, 2018 to July 31, 2019. No-cost extension may not be requested. Funding that is not spent or encumbered by each institution's funding timeline requirements will automatically revert back to the originating office. Budget summaries must be submitted on the approved budget page (Use Attachment D).

7. BUDGET JUSTIFICATION (1 PAGE MAXIMUM)

Each PI will submit a budget justification providing details for all proposed expenditures at his/her respective institution. The budget justification must address each budget line item on Attachment D that contains a proposed cost, for each institution. The budget justification must convey an integrated understanding of the types of resources (personnel, materials, other) necessary to complete the proposed effort. The proposed budget for each institution must conform to that institution's requirements for internally funded research or grant activity.

UTSA Budget Considerations

Grant funds **can** be used for the following:

- Salaries and/or wages for faculty, postdoctoral fellows, graduate and undergraduate students. Fringe benefits are paid centrally- *exclude* fringe benefits on the budget template worksheet;
- Research related equipment when justified as essential to the project;
- Materials and supplies but must be justified as needed for project success;
- Publications;
- Expenses for field work, data collection, archival research, training, educational purposes and/or presentations on research, creative or scholarly activities directly related to the proposed project;
- Consultant fees if necessary for the completion of the project;
- Contracts and sub-awards for activities outside of UTSA but must be clearly and convincingly described as necessary for successful execution of the proposed project;
- Travel (not to exceed GSA rates) to conferences or other conference support if directly related to the proposed work;
- Travel (not to exceed GSA rates) for data collection or other purposes when justified as essential to the project.

UTSA faculty must commit a minimum of 1% salary effort on the grant and can use funds for summer salaries.

Grant funds **cannot** be used for the following:

- Office equipment, including computers or laptops (unless specifically justified with prior approval);
- Domestic travel that is not directly related to project research (e.g., conferences cannot be supported by this grant);

- International travel;
- Student travel (unless the student is paid by the grant and is directly related to project research);
- Student stipends, scholarships and/or tuition;
- Indirect costs (F&A) costs;
- Payment of salaries to non-UTSA personnel;

UT Health SA Budget Considerations

Grant funds **can** be used for the following:

- Salaries and wages of post-doctoral fellows; graduate students; research technicians; and other non-faculty project personnel;
- Research related equipment;
- Research related travel;
- Materials, supplies, and publications;
- Consultant services are allowable if necessary for the completion of the project.

UT Health SA faculty must commit a minimum of 1% effort on the grant and can use funds for salaries.

Grant funds **cannot** be used for the following:

- Domestic travel that is not directly related to project research (e.g., conferences cannot be supported by this grant)
- International travel;
- General office equipment, including computers (unless specifically justified with prior approval);
- Graduate student travel is not allowable unless the student is paid by the grant and is directly related to project research.

8. BIOGRAPHICAL SKETCH

Complete for each PI and co-investigator. Do not exceed two pages for each. Each PI may use its preferred format (NSF or NIH) and content for their biographical sketch for this proposal.

EXTERNAL PEER REVIEW

Proposals will be reviewed by a peer review committee established in consultation by both institutions Office of the Vice President for Research. This committee will consist of internal and external reviewers approved by each Vice President for Research.

Proposals will be reviewed by a panel with broad expertise and a track record in identifying innovations – these reviewers may not be deep domain experts in your field. As such, *proposals should be clearly written in a way that the goals, rationale and methods of the proposed work can be understood by all reviewers.* You must describe your idea in clear language without the use of jargon unique to your field. All applicants will be provided with reviewers comments.

Proposals will be evaluated on a 100 point scale. The PI(s) are expected to include all required proposal components and fully and clearly answer each of the project description questions.

Proposals will be evaluated using the following criteria:

Criteria	Description	Maximum Point Allocations
Topic Responsiveness	Does the proposed research focus on HEAL Initiative priorities?	10
Innovative Approach	Does the idea offer an unconventional, ground-breaking approach to the problem outlined in the topic and is the proposed research of high risk and high reward?	20
Overall Impact	Does the research have the potential for major societal impact?	20
Goals, Objectives and Anticipated Results	Does the project description provide specific goals, objectives and anticipated results; and a description of methods including anticipated barriers or technical difficulties? Does the proposal describe a proof-of-concept or prototype technology that can be demonstrated at the conclusion of the effort?	20
Resources	Does the project description identify resources needed for this project (equipment, materials, etc.)?	15
Joint Execution Plan	Does the Joint Execution Plan summarize the task-level activities to be performed by UTSA and UT Health SA as they relate to the overall project’s objectives? Have potential barriers or technical difficulties been identified and mitigations formulated?	15
		100 Total Possible Points

GRANT ADMINISTRATION

Each PI is responsible for the administration of grant funds within the terms of their respective institutions rules and regulations. In particular, he/she must be certain that cost overruns do not occur and that all funds are fully expended according to institutional fiscal deadlines. All work must be completed in the 12-month grant performance period.

Extramural Grant Submission Required

Successful applicants must produce a new proposal for extramural funding as part of the final report within 6-months of completion of the project. In exceptional cases, where seed funding may prove the project to be ultimately non-competitive, a waiver of the extramural application requirement can be requested from the UTSA VPREDKE and UT Health SA VPR. If neither an external application nor letter of explanation is submitted, no new research funds will be made available to the PI or co-investigators until the letter or application is submitted.

INTERIM & FINAL REPORTING REQUIREMENTS

A Project Update Meeting and mid-term report will be requested by the UTSA VPREDKE and UT Health SA VPR in January 2019. Each PI is responsible to submit a Final Grant Report no later than August 31, 2019. Awardees will be provided final reporting instructions prior to the end of their project.

PROGRAM TIMELINE

- July 6, 2018– Grant Proposals Due (by 11:59 pm)
- July 23, 2018– Awardees Announced
- August 1, 2018 – Grant Performance Period Begins (Funds Available)
- January 2019 – Project Update Meeting and Mid-term Report Requested by UTSA VPREDKE and UT Health SA VPR
- July 31, 2019 – Grant Performance Period Ends
- August 31, 2019 – Final Project Report Due
- January 31, 2020 – Deadline for Extramural Funding Grant Submission

Abstract (400 word or less)

If this research proposal is funded, I agree that my acceptance obligates me to:

1. Include the following acknowledgement on all publications resulting from this grant award.

“This project was funded (fully or in-part) by the State of Texas Legislation, appropriated funds under the San Antonio Life Sciences Institute.”

2. If human subjects or animal research is involved, protocols to the UTSA Institutional Review Board (IRB) or UTSA Institutional Animal Care and Use Committee (IACUC) must be approved prior to funds being released.

To complete IRB protocols – <http://reaserachutsa.edu/oric/irb>

To complete IACUC protocols – <http://oric.utsa.edu>

3. Submit at least one extramural proposal for funding to support the future progress of the project, within 6 months of the completion of the **SALSI Pilot Awards** Program.

4. Adhere to the assigned **SALSI Pilot Awards** Program timeline:

August 1, 2018 – Grant Performance Period Begins (Funds Available)

January 2019 – Project Update Meeting and Mid-term Report Requested by UTSA VPREDKE and UT Health SA

July 31, 2019 – Grant Performance Period Ends

August 31, 2019 – Final Project Report Due

January 31, 2020 – Extramural Proposal Submission Deadline

5. Respond to all inquiries and communications from the Office of the Vice President for Research, Economic Development and Knowledge Enterprise related to the **SALSI** funded project.
