

Limited Submissions Announcement

A limited submission opportunity is available from the William T. Grant Foundation and is available on the [UTSA Limited Submission Opportunities webpage](#).

William T. Grant Scholars Program Overview

The William T. Grant Scholars Program supports career development for promising early-career researchers. The program funds five-year research and mentoring plans that significantly expand researchers' expertise in new disciplines, methods, and content areas.

Applicants should have a track record of conducting high-quality research and an interest in pursuing a significant shift in their trajectories as researchers. The Foundation recognizes that early-career researchers are rarely given incentives or support to take measured risks in their work, so this award includes a mentoring component, as well as a supportive academic community.

Awards are based on applicants' potential to become influential researchers, as well as their plans to expand their expertise in new and significant ways. The application should make a cohesive argument for how the applicant will expand his or her expertise. The research plan should evolve in conjunction with the development of new expertise, and the mentoring plan should describe how the proposed mentors will support applicants in acquiring that expertise.

Proposed research plans must address questions that are relevant to policy and practice in the Foundation's focus areas:

1. **Reducing Inequality:** In this focus area, the Foundation supports research to build, test, and increase understanding of approaches to reducing inequality in youth outcomes, especially on the basis of race, ethnicity, economic standing, language minority status, or immigrant origins. The Foundation is interested in research on programs, policies, and practices to reduce inequality in academic, social, behavioral, and economic outcomes.
2. **Improving the Use of Research Evidence:** In this focus area, the Foundation supports research to identify, build, and test strategies to ensure that research evidence is used in ways that benefit youth. The Foundation is particularly interested in research on improving the use of research evidence by state and local decision makers, mid-level managers, and intermediaries.

Eligibility

- Applicants must have received their terminal degree within seven (7) years of submitting their application. (Note: calculate by adding seven years to the date the doctoral degree was conferred.)
- Applicants must be employed in career-ladder positions. For many applicants, this means holding a tenure-track position in a university.

Limited Submissions Announcement

- Must pursue research that has compelling policy or practice implications for youth in the United States.
- Applicants of any discipline are eligible.

Application Limit

Major divisions (e.g., College of Arts and Sciences, Medical School) of an institution may nominate only **one** applicant each year.

Award Amount

\$350,000, distributed over five (5) years.

Internal Evaluation Criteria

The attached review matrix will be utilized for internal review/scoring. Pre-proposals should be responsive to these criteria.

Timeline

Internal Notice of Intent Due (Preferred)	Limited Submission Application Due	Selection Notification	Application Due to Funder
March 18, 2019	March 25, 2019	April 9, 2019	July 2, 2019
