OVERVIEW:

San Antonio Military Health and Universities Research Forum (SURF) is a conference opportunity with the mission to “advance research collaborations among academia, military, and industry partners to improve health outcomes and readiness.” SURF participants will present and share research, practice, and policy knowledge; earn continuing education credits/units (e.g., CME, CNE, CDE); and connect with scholars and practitioners from the San Antonio Military Market, academic institutions, and other public, government, and private organizations for future education, research, policy, and practice collaborations.

CALL FOR SPONSORSHIPS:

The SURF planning committee is actively seeking sponsors to support and grow the annual conference. Opportunities for sponsors to support SURF include 1) holding the conference in the Henry B. Gonzales Convention Center, 2) including exhibitors, 3) publishing abstracts/proceedings in a peer-reviewed journal, 4) hosting world-renowned keynote & plenary speakers, 5) offering awards for scholarship, and 6) offering student travel awards to attend the conference.

San Antonio is a unique city and a leader in government and civilian healthcare research through organizations like the San Antonio Military Market, UT Health San Antonio, The University of Texas at San Antonio (UTSA), San Antonio Medical Foundation, and BioMedSA. These institutions invite you to the ninth annual SURF, a local event to showcase the work of trainees, faculty, staff, and students from multiple disciplines and public health agencies across San Antonio.

SURF AUDIENCE:

- Students, faculty, researchers, and staff from multiple disciplines and public health organizations from the San Antonio region as well as attendees from around the nation
- Approximately 500 attendees annually

SURF OUTCOMES:

- Expanding research, practice, policy, collaboration, and knowledge of the military and civilian medical research community
- Highlight the urgency and significance of work in these fields as it relates to government and civilian healthcare

Participation by any United States Department of Defense Agency in any SURF activity or event does not constitute an expressed or implied endorsement of any sponsor, donor, contractor or participant's opinions, products, or services.
