3:00 pm - 4:30 pm | Tuesday, November 28, 2023

VIA ZOOM

Presented by: **Richard H. Nader PhD**, Global Proposal Solutions & **Diana Elrod PhD**

This workshop provides a fundamental understanding of the purposes, processes and expectations for evaluations of health, education and social services project grants. Participants will understand how to structure the assessment part of a proposal to include the determination of measurable objectives and the development of tools (e.g., logic models, Gantt charts) to guide proposal development to that needs/problems align with objectives and result in excellent, well-designed evaluations. Participants will also learn about various funding agencies' expectations (internal v. external) assessment, and budgeting for evaluation.
