## **About the Awards**

The UTSA Innovation Awards recognize Innovation Excellence in the UTSA research community. These awards are presented annually in four categories, and are the lead indicators of UTSA's success at commercializing innovations.

The first category recognizes recipients of issued patents, trademarks and/or copyrights. Awardees are presented with a plaque/certificate memorializing their award.

The second category recognizes faculty members whose intellectual property was successfully out licensed. Innovators with technologies that are newly optioned, licensed, or are now generating returns for the university are recognized.

The third category is for the recognition of faculty, staff, students, and team mentors who have participated in the National Science Foundation I-Corps program.

The final category is for the Innovator of the Year Award. The award recipients will be presented with a trophy recognizing the highest innovation impact based on technology disclosures, patent filings, issued patents, and licenses signed in the previous fiscal year.

**If you have any questions regarding the Annual UTSA Innovation Awards, please contact the Office of Commercialization and Innovation at (210) 458-6963 or [oci@utsa.edu](mailto:oci@utsa.edu)**
