
PROGRAM DESCRIPTION

The Grants for **Research Advancement and Transformation (GREAT)** program, sponsored by the Office for Research and Innovation at The University of Texas at San Antonio (UT San Antonio), offers faculty the support necessary to pursue new areas of research in their field. The ***primary goal*** of these awards is to assemble preliminary data that can be used to seek extramural funding and advance UT San Antonio's institutional research excellence goals.

Preference will be given to proposals that:

- Have significant intellectual merit
- Represent a new direction for the Principal Investigator (PI) or research team
- Build or strengthen cross-disciplinary research partnerships
- Have a high potential for extramural funding

Successful applicants must produce a new proposal for extramural funding as a final reporting requirement within one year of completion of the seed grant.

AWARD INFORMATION

- **Estimated Number of Awards:** 4, subject to the availability of funds
- **Max. Total Funding Per Project:** \$20,000, subject to the availability of funds
- **Performance Period:** October 2026 – July 31, 2027**

***Funding not spent by July 1, 2027, will automatically revert to the Office for Research and Innovation. This excludes salaries and wages, which can continue to be expensed through July 31, 2027. No project extensions will be allowed.*

Early Career Faculty: Up to two awards may be designated for early career faculty, depending on the intellectual merit of applications received. For the purposes of this call, *early career faculty* are defined as faculty who are within the first three years of a tenure-track position. Proposals from early career faculty will be evaluated alongside all other applications using the same review criteria.

PROGRAM TIMELINE

| | |
|-------------------|--|
| February 6, 2026 | Request for Proposals (RFP) released |
| February 25, 2026 | Letter of Intent due to InfoReady (by 5:00 PM CST) |
| February 27, 2026 | Notifications of Advancement Sent to Applicants |
| March 25, 2026 | Applications due (by 5:00 PM CST) |
| July 2026 | Awards announced |
| October 2026 | Grant performance period begins (funds available) |
| July 1, 2027 | All funds must be spent (<i>see Award Information section above</i>) |
| July 31, 2027 | Grant performance period ends (<i>unspent funds will be swept</i>) |
| August 30, 2027 | Final project report due |
| August 30, 2028 | Year 2 project report due, <i>extramural grant submission due</i> |

ELIGIBILITY & APPLICATION LIMITS

- Both single PI and multi-PI or other collaborative team projects are allowed.
- PIs (primary applicant) must be full-time, tenure track or tenured faculty at UT San Antonio's Academic Campus in residence at the time of application and award, with a primary appointment (50% or more) in one of the colleges below. *Other personnel or students including individuals outside the listed colleges and/or UT San Antonio may be incorporated into a project team as co-PI; however, only those who are UT San Antonio Academic Campus employees or students can be funded through this program.*
 - Alvarez College of Business
 - College of Education and Human Development
 - Klesse College of Engineering and Integrated Design
 - College of Sciences
 - College of Health, Community and Policy
 - College of Liberal and Fine Arts
 - College of AI, Cyber and Computing
 - University College
- A faculty member may be designated as PI (primary applicant) on only one proposal (either as a new or revised proposal) each application cycle. However, an individual may serve in a co-PI (co-applicant) or other collaborative role on more than one application each cycle.
- It is the PI's responsibility to ensure all team members are eligible and not exceeding application limitations
- UT San Antonio (Academic Campus) faculty are only eligible to receive either a GREAT or an INTRA Office for Research and Innovation award as PI (primary applicant) in any given fiscal year. Should a PI (primary applicant) be selected for both programs, the PI will be asked to select between their GREAT or INTRA award.
- If a GREAT application was not funded in the FY26 application cycle, the applicant is allowed one resubmission of a revised proposal on the same subject. *Note: Revised proposals must provide a cover letter as an appendix indicating changes from the previous proposal and responses to reviewer comments.*
- Applicants submitting a proposal closely related to a project previously funded by the Office for Research and Innovation must demonstrate that the new application is substantially different from the prior award.

The following are ineligible for funding through the FY27 GREAT program:

- Faculty identified as PI (primary applicant) who were awarded GREAT funding for FY26 (Performance Period: 10/6/2025 – 3/31/2027)
 - Faculty identified as PI (primary applicant) or co-PI (co-applicant) that have any outstanding reports under previously funded Office for Research and Innovation awards
-

- Projects serving as gap funding to bridge support between external grants or contracts
- Proposals that have been previously submitted to an extramural agency (and are pending review or were found to be non-competitive). *Exception: Proposals previously submitted to an extramural agency that were declined due to insufficient preliminary data. The Seed Grant Review Committee will consider such proposals only if the applicant submits, as an appendix, a copy of the original application as well as an executive summary statement or official letter from the agency specifically stating the deficiency or absence of preliminary data.*
- Projects proposed to the Office for Research and Innovation seed grant funding that do not have a distinct scope. If more than one application is submitted to this or other Office for Research and Innovation seed grant programs, all like applications may be deemed ineligible.

LETTER OF INTENT REQUIREMENTS:

A Letter of Intent is **required** to advance to full submission stage to assess eligibility and prepare review committees. The Letter of Intent will request the following information:

- A. Applicant information (name, college/department, email, previous awards, etc.)
- B. Proposed Project Title
- C. 3-5 Keywords summarizing the scope of proposed project
- D. Project Abstract/Overview

Once submitted, applicants will be notified no later than **5 PM CST on February 27, 2026**, of advancement to full application submission.

NOTE: Submission of a Letter of Intent to the Office of Sponsored Projects is not required for this program. The Internal Funding Opportunities Letter of Intent is separate and distinct from OSPs and will not be accepted if not submitted to InfoReady.

SUBMISSION INSTRUCTIONS

1. Submit full application to InfoReady by **5pm CST on March 25, 2026**. Information on how to access the application will be sent through notifications of advancement. *InfoReady applicant guide with video available [here](#).*

Regulatory Compliance:

Projects are subject to [Institutional Review Board \(IRB\)](#), [Institutional Animal Care and Use Committee \(IACUC\)](#), [Institutional Biosafety Committee \(IBC\)](#), export control, conflict of interest, and campus safety regulations and approvals. The PI is expected to have thoroughly investigated all regulatory components of the intended research and to have discussed relevant components in the proposal. Prior to making an award, required protocols must be in place.

APPLICATION COMPONENTS

Application components required at the time of submission are listed below. **If components are missing and/or formatting is not compliant, the application will not be reviewed.**

Preferred Upload Method to Minimize Download Errors:

Materials required for upload should be uploaded in PDF format. Adobe Portfolios should not be used for final submission. **If uploaded as a Portfolio, the application will not be reviewed.**

Formatting requirements for items with an asterisk (*) below:

Single-spaced, 12pt Times New Roman font, 1" margins all around. Font colors may be used to identify components. Text in figures, graphs, tables, diagrams, and charts should be no smaller than 10pt Times New Roman font.

| Component | Maximum Length |
|--|--|
| 1. InfoReady Questionnaire | 250-500 words each (<i>see below</i>) |
| 2. Budget | Use Attachment A |
| 3. Budget Justification | 1 page |
| 4. Current, Pending, and Recent Support | 3-5 pages, as limited by the format selected |
| 5. Plan for Extramural Support* | 2 pages |
| 6. Key References* | 1 page |
| 7. Biographical Sketch from PI/Co-PIs | 3-5 pages, as limited by the format selected |
| <i>Appendices, if applicable, for revised FY26 Submission:</i> | |
| 10. Cover Letter* | 1 page |
| <i>For consideration of unfunded extramural proposal:</i> | |
| 11. Copy of original proposal 12. Copy of executive summary statement or official letter from the agency specifically stating the deficiency or absence of preliminary data | |
| <i>Items to NOT include in final upload:</i> | |
| 1. Program Guidance 2. Page Numbers 3. Letters of Support 4. Headers and Footers 5. Bookmarks | |

1. InfoReady Questionnaire (250-500 words)

The InfoReady Questionnaire requests the following information, apart from the budget justification, budget template, and current, pending, and recent support uploads:

- A. Clearly Articulated Objectives and Outcomes
- B. Current Limitations of Research in the Field

- C. Novelty of Proposed Work
- D. How Approach Differs from Current Work
- E. Explanation of any risks or potential challenges the project may face
- F. Societal Impact of Proposal

All components, unless otherwise stated, have a limit of 250–500-word descriptions.

2. Budget ([Use Internal Budget Template](#))

Budgets must be submitted solely on the UT San Antonio approved budget template ([Internal Seed Grant Budget Template](#)) and must not exceed the allotted fund request of the program. Contact your respective [College Research Administration Team](#) for assistance with completing the budget template.

3. Budget Justification (1-page)

Details for all proposed expenditures must be described in a budget justification. This document must convey an integrated understanding of the types of resources (labor, materials, other) necessary to complete the proposed research project.

For each line item, provide detailed calculations of how you arrived at totals/estimates, and note whether funds will be expensed during the academic year (October—May), summer (June—July), or both.

EXAMPLES:

- \$3,000 allocated for travel related to data collection and archival research at _____.
- \$2,000 for GRA salary (three month hire x 15 hours/week x ~\$10.26/hour)

Budget Considerations

Funds **can** be used for the following:

- Salaries and/or wages for faculty, postdoctoral fellows, graduate, and undergraduate students. *Faculty are not required to request funding for their effort; however, if a faculty member does request funded effort, each faculty member is limited to no more than 1 summer month of effort.* For most T/TT faculty, 1 summer month is the equivalent of 1/9th of your base annual salary contract amount. [Fringe benefits](#) are paid centrally and should be excluded from the budget worksheet.
 - Materials and supplies (any item with a cost of less than \$5,000/unit must be justified as needed for project success)
 - Expenses for field work, data collection, archival research, training, educational purposes and/or presentations on research, creative or scholarly activities directly related to the proposed project
 - Consultant fees
 - Contracts for activities outside of UTSA (must be clearly and convincingly described as necessary for successful execution of the proposed project)
-

- Domestic travel (Data collection, conference presentation, meeting with a collaborator). *Travel must adhere to [UTSA Financial Management Operational Guidelines](#) and [GSA per diem](#) rates.*

Funds **cannot** be used for the following:

- *Fringe benefits*
- *Equipment (unit cost of \$5,000 and useable life of greater than one year)*
- *Office equipment, including computers or laptops.*
- *International travel*
- *Non-UTSA employee travel*
- *Stipends, scholarships, and/or tuition*
- *Indirect costs (F&A) costs*
- *Payment of salaries to non-UTSA personnel*
- *Refreshments. (Includes food/refreshments for participants, business meals. Excludes meals while on travel).*
- *Hosting conferences, workshops, or seminars*
- *Travel to visit program officers*

If additional resources are available to support this project through other sources, the budget justification should include a list of these resources, noting when the resource will be available and who it will be provided by. ***Examples include*** lab or studio time, equipment, computer resources, and research assistantships made available through a department, as well as support obtained from external sources. Note: While additional resources can be listed, no formal cost-sharing is allowed. ***NOTE- If awarded, applicants are unable to reallocate funds without prior approval from the Office for Research and Innovation.***

Please contact seedgrants@utsa.edu prior to working with your departmental financial lead to allocate funds differently from that described in your approved application. The Office for Research and Innovation will review costs to ensure it is an allowable expense. When budgeting for participant support, estimate with most accuracy as possible. Reallocation to and from this spending category is not permissible.

4. Current, Pending, and Recent Support (3-5 Pages)

Current, Pending, and other Recent Support must be included for PI (primary applicant) and any Co-PIs (co-applicants). Details for all current, pending, and other recently funded projects (in the last 3 years, if already complete) must be described, including this project. The following must be included for each project:

- Label of Pending, Current, or Other Recently Funded
- Project Proposal Title
- Source of Support (i.e., sponsor name)
- Total Award Amount
- Total Award Period Covered (e.g., 9/1/20 – 8/31/21)

- Person Months Per Year Committed to Project (i.e., academic and/or summer months)

PIs are encouraged to use [SciENCv \(NIH or NSF format\)](#). If SciENCv standard templates are not used, PIs are limited to 3-5 pages.

5. Plan for Extramural Support (2-page maximum)

Attach a specific plan for pursuit of extramural funding after completion of this project. Submission of at least one extramural proposal is **required** as part of the grant award terms and must be completed within one year of the completion of the award term. Your plan for extramural support must address the following:

- *Sponsor/Program*: What extramural funding program(s) do you plan to pursue? List specific program(s), deadlines you will target, and how you will leverage results of this seed grant for external support.
- *Objectives*: What will the extramural proposal seek to accomplish and how is it specifically supported by this seed funding? Describe how this work represents a new area for you and what the potential societal impact is.
- *Team*: Who are your team members from UT San Antonio and other partnering organizations? Briefly describe their skills related to the project. More people can be involved in your extramural funding proposal team than are budgeted in this seed grant.
- *Pre-review*: Who will read and comment on your extramural proposal before it is submitted? Having a colleague review your application prior to submission significantly increases the likelihood of being funded.

6. Key References (1-Page)

A curated list of foundational and recent scholarly works, data sources, and relevant publications that support the proposed research. These references demonstrate the scientific basis, contextual relevance, and methodological grounding of the project. They may include peer-reviewed articles, authoritative reports, and seminal texts that have informed the development of the research questions, approach, and anticipated outcomes.

7. Biographical Sketch from PI/Co-PIs (3-5 Pages)

Biographical sketch (Resume/C.V.) attachments must be included for PI (primary applicant) and any Co-PIs (co-applicants). PIs are encouraged to use [SciENCv \(NIH or NSF format\)](#). If SciENCv standard templates are not used, PIs are limited to 3-5 pages.

Collaborators or other personnel who are not identified as Co-PI's are not required to submit supporting documents; however, their roles must be clearly defined in the project description.

PEER REVIEW

Proposals will be reviewed by a panel with broad expertise and a track record in identifying innovations – these reviewers may not be deep domain experts in your field. As such, proposals should be clearly written in a way that the goals, rationale and methods of the proposed work can be understood by all reviewers. Avoid discipline-specific terminology/jargon as much as possible.

The Review Committee will review proposals and make recommendations to the Office for Research and Innovation. Funding decisions will be based primarily on the Committee's recommendations; however, final decisions will rest with the Office for Research and Innovation.

Proposals will be evaluated based on the weighted criteria below. The PI (primary applicant) is expected to address all required proposal components.

| Review Criteria | Weight |
|--|---------------|
| Scientific Merit & Novelty Does the proposal clearly articulate objectives and outcomes, demonstrate novelty, and differentiate from current work? | 30% |
| Budget & Justification Is the budget complete, reasonable, and aligned with project scope, especially considering the time provided to complete the project? | 20% |
| Feasibility and Risk Management Are risks identified and mitigated? Is the joint work plan realistic and well-coordinated? | 20% |
| Impact and Innovation Does the proposal demonstrate meaningful societal impact and provide a clear, actionable plan for pursuing extramural funding after the project ends? | 20% |
| Team Qualification & Work Plan Does the team have the expertise and collaborative structure to achieve project objectives, including a clear and feasible joint work plan? | 10% |

GRANT ADMINISTRATION

The PI (primary applicant) is responsible for the administration of grant funds. All grant expenditures must conform to state and university regulations and approvals. The PI must be certain that over-expenditures do not occur, and that all funds are fully expended according to programmatic deadlines. All work must be completed within the performance period.

REPORTING REQUIREMENTS

A final progress report will be requested at the end of the performance period. Applicants awarded funding under this opportunity will be required to submit their final report to the Office for Research and Innovation using the UT San Antonio Seed Grant Reporting Form on InfoReady, capturing both quantitative and qualitative output. Awardees will be provided with final reporting instructions prior to the end of their project. The PI (primary applicant) is responsible for submitting a Final Grant Report by **August 30, 2027**.

Progress Report Assignments must be submitted to the Office for Research and Innovation for members of the project team to be considered for future Research Internal Funding Programs.

Extramural Grant Submission Required

Awardees must produce a new proposal for extramural funding as part of the final report within one year of completion of this project (end of year two reporting). In exceptional cases, where seed funding may prove the project non-competitive, a waiver of the extramural application requirement can be requested from the Office for Research and Innovation. If neither an extramural proposal nor waiver is submitted, no new Office for Research and Innovation funds will be made available to the PI (primary applicant) or Co-PIs (co-applicants) until an extramural proposal or waiver is submitted. **The applicants must submit a report to the Office for Research and Innovation describing the extramural grant submission details by August 30, 2028.**
